Dear Mr H Ahktar

**Cab Safe Security Screen Demonstration**

Thank you for taking a vehicle into the testing station for the above screen to be seen and demonstrated. The testing station was happy with the product.

I have discussed this matter with both my manager and the Council's Legal Department and are happy that as this isn't covered in the conditions and nor does it appear to affect the conditions that there is no need for a report to the Appeals and Regulatory Committee.

However, I would like to point out Condition 10 of the vehicle conditions, which states;

'There must be sufficient means by which a passenger can communicate with the driver and vice versa.'

Please ensure that all screens fitted have a means for communication and the passing of money.

It will be up to individual drivers to determine whether they purchase the product or not.

Yours sincerely

Grace Dowson  
Senior Licensing Officer
