Cab Safe Security

RE: Approval to fit Cab Safe Security Screens - Private Hire & Non Metropolitan Type Hackney Carriage Taxis

Thank you for the information you provided on the vehicle screen installation product and service your company offers.

I can confirm that Medway Council has no objection to the installation of such screens in our licensed hackney carriage and private hire vehicles subject to the safety of the vehicle and/or driver not being compromised.

However, this consent is not an endorsement of your product or services and Medway Council cannot recommend your Company. Medway Council will not intervene in disputes between your company and any of our licensees.

I would appreciate it you would notify this office of any installations carried out to Medway licensed vehicles in order that our records can be updated.

Mandy
